6. Generator Certifications

I hereby certify the above information is correct to the best of my knowledge. I further certify that RecOil will be notified, in writing, of any process changes, which could significantly alter the composition, and/or chemical/physical properties of the waste classified above. I further certify that the waste has not intentionally been mixed with hazardous waste and that all known or suspected hazards have been disclosed. I further certify that this material neither contains or has been mixed in any way with Polychlorinated Biphenyls (PCB's), Pesticides, or Herbicides to the best of my knowledge.

Resource Recovery Facilities Non-Hazardous Certification

I certify that the waste materials consigned to RecOil for recycling/reuse/treatment or destruction by incineration for Resource Recovery Facility are classified as non-hazardous according to federal regulations, 40CFR Part 261. The waste does not exhibit the RCRA characteristics of ignitability, corrosivity, reactivity, or toxicity. It does not contain hazardous levels of toxic metals, air emission metals, volatile or semi-volatile organics, pesticides or herbicide constituents, nor is it a listed hazardous waste. The determination has been made based on generator knowledge and/or analytical data.
